Connecting people to Jesus through the air.

RECENT MISSION – THE 1ST OFFICIAL MISSION

Kyle Idleman, Teaching Pastor and author from Southeast Christian Church in Louisville, KY had an evening engagement in Nashville, TN with the Trinity Broadcasting. Typically this would be a 3 ½ hour trip to the destination but Mission Air touched down in about 1 hour. On this trip I had help from Jamie Costanzo who is an excellent pilot and has offered his valuable time to help serve with our missions. Because of some routine maintenance to our 6-seat plane we flew the Columbia 400 (pictured below) which is a 4 seat plane. Because we had 2 pilots Kyle was seated in the back, I felt that would be easier on him to hide his nervousness. The trip was uneventful although I did notice the “puke bag” in the back seat was pulled ½ out of its storage area. We were ahead of schedule so we managed to stop at Chik-fil-A and grab a bite to eat. Kyle and I showed strong will power and ordered grilled chicken while Jamie ordered the “everything fried” platter. Even after eating we still arrived early to the show which included an outdoor stage that was wide enough for a panel discussion on one end and a band on the other. The band members were actually the stars for the movie “The Song” which was the focus for this TV show. During the 2 hour show Kyle was allotted 2 10 minute segments to preach to not only the cameras but to 300 seated spectators. The crowd was electrified by Kyle’s message which assured me that this mission was already a success. We were able to touchdown back in Louisville and Kyle was back home by midnight instead of 4:00 a.m. Mission accomplished!
